Country specific terms

- 1) The award "sehr gut" (very good) does only apply for AMILO Xi 2550 with Intel® Core™ 2 Duo processors up from T8100. The award "gut" (good) applies for all previous processor types.
- 2) If 4 GB RAM is preinstalled, up to 1 GB cannot be used for application if running with a 32-bit operating system.
- 3) The total of local and shared system memory used by the GPU.
Local graphic on-board memory is 256 MB VRAM
Shared video memory size may vary depending on configuration. Used video memory size depends on Microsoft® Windows Vista® memory management.
 - 1024 MB system memory enables up to 511 MB static and shared memory.
 - 2048 MB system memory enables up to 1023 MB static and shared memory.
 - 3072 MB system memory enables up to 1535 MB static and shared memory.
 - 4096 MB system memory enables up to 1535 MB static and shared memory.
- 4) Battery life may vary depending on product model, configuration, applications, power management settings and features utilized. Recharge time varies depending on usage. The recharge capacity may decrease after some months so that the battery lifetime as well as operating time can not be assured for the whole lifetime of the notebook.
- 5) Weight may vary depending on actual configuration.

The configuration described in this document is generic only and non-binding. For the exact configuration of your AMILO, please contact your licensed dealer.
